GAZETTE'S SPECIAL EDITION.

A Descriptive Issue of the Gazette for General Distribution.

About the middle of May THE GA ZETTE will print a special edition of at least 50,000 copies for distribution throughout the state and outside of it. This issue is intended to set forth the advantages and growth of Fort Worth and will include a full page map of the city, which will show the railroads leading to it. The paper will give a general description of the counties through which these railroads run, besides containing the most complete information concerning the city and its development, its present status and possibilities. Its resources will be set forth and its importance as a commercial center will be demonstrated.

The purpose is to advertise this city and the territory surrounding it, and the special edition will contain information of value and interest to all prospectors. The advertising space in this edition is

necessarily limited, we therefore advise those wishing space in it to arrange for same at once, in order to insure inser-

Any town desiring a write-up in this special edition of THE GAZETTE can secure the space, by promptly addressing the business manager.

The advantages to local advertisers offered by this edition will be apparent to all, and the real estate man, owner or agent, wherever located in the state, can find no better means of bringing his property into the market, or placing his business before the capitalist and would-be investor at so small a cost as is here of-

The subscription price will be the same as for the regular daily issue, viz: 100 copies or less, 5 cents per copy; 250 copies or less, 41 cents per copy; 500 copies or less, 4 cents per copy; 1000 copies or more, 3 cents per copy. Orders for papers should also be for-

warded at once. Respectfully, DEMOCRAT PUBLISHING CO.

A Texas Memento.

A Boston man, a flying visitor to Fort Worth, was a passenger on a street car bound for the depot yesterday. The man from the hub eyed with wonder the long whip with the rawhide handle which the driver used in accelerating the speed of the gigantic mules that drew the bobtail. It struck his fancy so much that he determined to secure it and, asking the driver if a silver do lar would be a fair equivalent, soon rejoiced in its The St. Andrew's Sunday school May ownership.
